

Extension of flu vaccination programme for 50 – 64 year olds

As you will be aware the Government have extended the influenza vaccination cohort this year to include patients who are aged 50 – 64.

We are now in a position to offer these vaccines so if you would like one please contact Reception to make an appointment on 01538 308207.

We appreciate that some patients within this age group have already had a vaccine through a Pharmacy. It would be useful if you could let us know this so that we don't unnecessarily contact you. Please email kate.robtham@northstaffs.nhs.uk to advise.

Thank you for your patience.
